

- Experts agree that, apart from regular, thorough hand washing, the best way to protect oneself against covid-19 or any viral infection is with a strong immune system. Treating your indoor environment with Betterair rebalances your indoor biome which allows your immune system to recharge and operate at full capacity.
- Only Betterair disperses environmental probiotics into your living/workspace which eliminates organic allergens and pathogens.
- New studies indicate that coronavirus types can survive on surfaces and objects for up to 9 days. When the viruses land on a surface and/or object that is touched, it can then infect a person even if the contact occurs days after the initial virus is deposited on the surface. Betterair's Enviro-Biotics® virtually eliminates the threat of pathogens (harmful viruses, bacteria and fungi) and allergens from surfaces and objects.
- A study reviewed by Dr. Judy Neff, PhD, Head of Antimicrobial Atmospheres at AirRx Anti-Microbial Sciences, John Hopkins University summarizes that Betterair can reduce the FCV (a virus similar to the covid-19 virus) virus by more than 99%
- FCV (Feline Calicivirus) causes respiratory infection in cats and shares many common characteristics with the COVID-19 including where both originated.... from animals.
- Exposure to only 15 minutes of Betterair's probiotics, followed by a 6-hour total hold time, resulted in a complete kill (>99.99%) of viruses.
- Betterair is the world's first Probiotic Air Purifier which restores natural ecological balance to indoor environments with unique patented technology, reducing illnesses cause by allergens, mold, bacteria and viruses.
- Unlike our ancestors 90% of our lives are now spent indoors.
- Indoor air is at least 5 times more polluted than outdoor air.
- 80% of infectious diseases are transmitted by touching a contaminated surface or object and then transmitting it to our bodies via touching our mouth, eyes or nose.
- Betterair's Enviro-Biotics technology disperses a unique microscopic mist that safely and effectively targets Pollen, Viruses, Dust Mite allergens, Pet Dander, Mold Spores, and Pathogens.
- Continuous use of Betterair helps reduce and eliminate Allergy symptoms, Viruses, Asthma symptoms, Pet allergies, Bad odors, Mold growth.
